

MARINE FLOODLIGHTS

a part of our AQUA-FASTGROW solution

FUPELED 240M and 480M is a powerful marine floodlight, special designed for use onboard ship and marine installations. The light beam can be from 30 to 90 degree. The robust construction of the heat sink, and the shape of the reflector spot's make this light very effective compared to other floodlights on the market.

- Marine floodlight
- Light beam 30-90 degree
- Easy installation and handling
- Robust construction

Technical specifications:

- Effect: 480/240Watt
- Brightness: 57600/28800lm
- Light color: K2200-K10000
- Light angle: 30-90°
- Working temp: -30°C til +50°C
- Waterproof: IP67
- Material: Aluminium/stainless steel
- Voltage: 100-240VAC
- Size: 860x330x245mm/430x330x245mm
- Weight: 22/11kg
